Areas of Study

Demography, Family, Life Course, Research Methods, and South Asian Studies

Education

Ph.D.	1990	Sociology	University of Michigan
M.A.	1988	Sociology	University of Michigan
B.A.	1986	Sociology	Cornell University

Magna Cum Laude and Distinction
Phi Beta Kappa, Phi Kappa Phi

Professional Positions

2015, 2019	Visiting Professor, Department of Sociology, University of Chicago
2015-	Professor, Gerald R. Ford School of Public Policy, University of Michigan
2014-	Director, Program in Society, Population, and the Environment, Institute for Social Research, University of Michigan
1998-	Professor, Department of Sociology; Research Professor, Population Studies Center and Survey Research Center; and Faculty Member, Center for South and Southeast Asian Studies, University of Michigan
1995-	Director, Population and Ecology Research Laboratory-Nepal
2009-2014	Director, Survey Research Center, University of Michigan
2009	Associate Director, Survey Research Center, University of Michigan
2003-2008	Associate Director, Population Studies Center, University of Michigan
1997-1998	Professor, Department of Sociology, Pennsylvania State University
1994-1998	Senior Research Associate, Population Research Institute, Pennsylvania State University
1994-1997	Associate Professor, Department of Sociology, Pennsylvania State University
1990-1994	Assistant Professor, Department of Sociology; Research Associate, Ogburn Stouffer and Population Research Centers, NORC; and Member, Committee on South Asian Studies and Committee on Demographic Training, University of Chicago

Honors and Awards

2008	Outstanding Publication Award, American Sociological Association Section on Aging and the Life Course for the book <u>Marriage and Cohabitation</u>
2002	Reuben Hill Award, National Council on Family Relations
2000-	Member, Sociological Research Association
1998-2000	Board of Directors, Population Association of America
1992	National Science Foundation Young Investigator Award
1989	Horace H. Rackham Pre-doctoral Fellowship, University of Michigan
1988	Honorable Mention, American Association for Public Opinion Research Student Paper Competition

Current Projects

South Asian Family Change, Mental Health, and Data Infrastructure

*Understanding the Connections among Genes, Environment, Family Processes and Mental Health, PI
National Institute of Mental Health (NIMH)*

This project is designed to advance knowledge of how the local community and genetic endowments shape mental health and family events. As part of the World Mental Health consortium, the project features collection of mental health measures and saliva based DNA from members of the Chitwan Valley Family Study in Nepal.

*Intergenerational Influences on Marriage, Contraception and Childbearing, PI
National Institute of Child Health and Human Development (NICHD)*

This project uses existing data to investigate the intergenerational influence of parental mental disorders on children's marriage, contraception, and childbearing, accounting for genetic contributions to these associations, and will create new data on the role of children's sex and substance use behaviors in these associations.

*Interdisciplinary Research Training Program for International Population Science, PI
National Institute of Child Health and Human Development (NICHD)*

This educational program launches the course work and data tools to teach population science methods for international and comparative research. Key topics include data collection methods, protection of human subjects, community influences, family change, child health, mental health and integrations of genetic approaches.

*Improving Learning: Developing Measures of Accountability and Evaluating their Association with Students' Gains in Achievement in Nepal, Co-Investigator
The Department for International Development (DFID)*

This project will develop and validate measures of accountability at all levels of the educational infrastructure to be shared with the Nepal Ministry of Education (MOE). The project will use those measures in an analysis of the determinants of accountability and its association with students' gains in achievement.

*The Tamil Nadu Household Panel Study, Co-PI (Michigan)
Government of Tamil Nadu (GOTN)*

The Government of Tamil Nadu, India has signed a government order (GO) to launch the Tamil Nadu Household Panel Study (TNHPS) and sustain it in the long term. This GO specifies that a scientific team from Michigan's Survey Research Center will design and support the TNHPS. The TNHPS is a rare opportunity to harmonize a new long-term family panel study to *important* existing panel studies.

*Consortium on Data for Development (India), Co-PI (Michigan)
Bill and Melinda Gates Foundation*

This partnership between the National Council of Applied Economic Research (NCAER), India, the University of Maryland, USA and the University of Michigan, USA, is designed to create a new generation of survey data collection tools for India. Activities include training, pilot studies and experiments conducted at NCAER's new Center for Innovations in Data Collection.

U.S. Family and Fertility

A More Efficient Web-Based Approach to Collecting National Family, Fertility and Reproductive Health Data, Co-Investigator

National Institute of Child Health and Human Development (NICHD)

This project develops an optimal web-based approach to conducting national survey data collections on population health. This new methodology will significantly reduce the costs of collecting health-related data from the general population in representative samples of the entire nation or other large groups. The result will be more evidence on population health to guide both research and practice on high-priority public health topics.

*Intergenerational Influences on Family Formation Processes, PI
National Institute of Child Health and Human Development (NICHD)*

As part of the PSID Transition to Adulthood Study (TAS), this project advances the understanding of factors shaping family formation processes in recent cohorts by (A) designing and assessing new data that will create comparable measures across two primary data sources available for tracking family change in the U.S. [PSID and NSFG], and (B) conducting analyses to provide reliable empirical answers to high-priority research questions.

*Responsive Design for Efficient Survey Data Collection: An Education Program, Co-Investigator
National Institute of Child Health and Human Development (NICHD)*

This project is designed to develop and implement a research education program that will provide participants with exposure to state-of-the-art developments in survey methodology and practical tools for improving their survey data collection activities.

National Campus Climate Survey (NCCS), PI

This partnership between the University of Michigan and SoundRocket offers universities across the nation affordable access to a national campus climate survey measuring sexual misconduct. Piloted at the University of Michigan, the NCCS successfully measured sexual misconduct experiences for evaluating policies and programs with a response rate of 67%.
